CARRIER OBJECTIVE

I am a Full Stack Java Developer with experience in developing web and mobile applications using Angular, Spring Boot, and Flutter. I am eager to apply my skills in a dynamic environment to deliver high-quality software solutions and contribute to achieving organizational goals.

PROJECT

Spring Boot & Angular Project

OCT-2025

Title: Bank Management System

- I developed a comprehensive Bank Management System using Spring Boot for backend services, MySQL for data management, and Angular for an interactive frontend experience.
- I implemented JWT-based authentication to ensure secure user sessions and integrated RESTful APIs for smooth client-server communication.
- The application also includes Hibernate for ORM and uses Bootstrap for a fully responsive design.
